Instructions for the tutorial **teachers**:

- The table above shows 5 time slots defined for the ACL 2020 tutorials on **Sunday, July 5**. -1 means the day before (July 4), +1 means the day after (July 6).
- Sample zones and cities were chosen for reference, for other places, please, refer to the map above.
- Colors indicate slots judged as: **convenient**, **not very convenient**, **inconvenient**.
- If a tutorial can only be given **once**, slot 4 or 5 (optimal for Seattle) will be chosen
- If a tutorial can be given **twice**, the teachers should propose **three slots** when they can make themselves available. Two out of these three slots will be chosen, for the best benefit of the teachers and the trainees.
